In SIX Swiss Exchange message no. 12/2015, SIX Swiss Exchange announced the SWXess Maintenance Release 5.1 (SMR5.1) as part of its ongoing improvement efforts and gave Participants an initial overview of the changes this optional release with mandatory configuration changes will involve.

This message provides Participants with detailed information on the business relevant changes in SMR5.1 and confirms the start of the Membertest phase.

Participant Readiness

The SWXess Maintenance Release 5.1 (SMR5.1) will mainly introduce the new «Self-Match Prevention» functionality for order book trading as well as enhancements in reporting and post-trade processing.

The «SMR5.1 – Participant Readiness» brochure published with this message contains all relevant and important information on the functional changes and regulatory impact of SMR5.1 as well as details concerning the migration and testing phase. In addition, the publication contains links to several other SMR5.1 relevant documents.

More information on the SWXess Maintenance Release 5.1 is available in the Member Section of SIX Swiss Exchange.

Rollout

The Membertest phase for SWXess Maintenance Release 5.1 (SMR5.1) will start as scheduled on Monday, 14 September 2015.

SIX Swiss Exchange is happy to be able to add value for its Participants with the implementation of SMR5.1 and the associated innovations and improvements.
